

STAGE / SOUNDCHECK / TECH SPECS / STAGE LIGHTS

TECH RIDER must be fulfilled by the venue. In case of any changes or alterations please contact the management immediately.

Stage has to be at least 30cm high and have to be capable of fitting a 5 person band with all of the equipment listed in the tech rider.

Tech crew or the venue employees are kindly asked to transport the bands backline from the bus that the band travels with- before the concert and after it.

Band needs at least **30-45min to set up equipment** on the stage and at least **2 hours for the soundcheck**.

No one is allowed at the soundcheck except for the tech crew, the venue employees and the bands crew.

The band doesn't have their own light engineer. Preferred dark lightening and a stage light directed at the trumpet player exclusively apart from the general stage lights.

CATERING / BACKSTAGE

Band needs 10 bottles of still water left at the stage, or handed directly to band's management prior to the concert.

Band needs a space where they can rest, which will be well lit and where they can safely secure their personal belongings.

They also need cold snacks available after the concert for 5 people.

Backstage should be equipped with:

- Still and mineral water -Paper tissues -Wet wipes -Mirror -Cold snacks
- Black and green tea -Black coffee
